1. Introduction

1.1. Indigo Power Limited's Distribution Business

Welcome to Indigo Power Limited. Indigo Power Limited is an independent electricity distribution business, licensed by the Gas and Electricity Markets Authority (GEMA), to design, build, adopt, operate and maintain electricity distribution networks in Great Britain.

1.2. Purpose of this Statement

This Metering Point Administration Services (MPAS) Charging Statement describes the process for obtaining MPAS. In Section 2 it confirms that charges for providing MPAS are already included in our Distribution Use of System Charges (DUoS) Charges, available on our website indigonetworks.co.uk. Section 2 also sets out a table of charges for additional MPAS services.

1.3. Indigo Power Limited's Licence Obligations

Metering Point Administration Services comprise:-

- establishing a register of technical and other information about premises connected to Indigo Power Limited's distribution system;
- maintaining that data, including amending it to reflect changes in Electricity Supplier to that premises;
- and providing data from the register in a timely and efficient manner to any relevant person.

These services are to enable Electricity Suppliers to estimate the cost of supplying that premises, to facilitate electricity supply to that premises and to allow Electricity Suppliers or any other relevant person access to information necessary for Settlement purposes.

Indigo Power Limited must provide MPAS to any legitimate requester. We must make an offer to provide MPAS within a time limit and using charges that have been set out and published in a format approved by GEMA – the MPAS Charging Statement. The MPAS Charging Statement must be available at all times and we must review the information in that statement at least annually to ensure that it remains accurate.

The above is a synopsis. For a complete understanding you should refer to the following licence conditions:-

- Standard Licence Condition 17 (SLC17) "Requirement to offer terms for the provision of Metering Point Administration Services";
- Standard Licence Condition 18 (SLC18) "Provision of and charges for the Metering Point Administration Services";
- SLC18's Appendix 1: "Schedule of Services";
- Standard Licence Condition 37 (SLC37) "Provision of the Data Transfer Service"; and
- Standard Licence Condition 7 (SLC7) "Determinations by the Authority".

Standard Licence Conditions are available on Ofgem's website, www.ofgem.gov.uk

It should be noted that Indigo Power Limited is not currently a meter asset provider (MAP) or an active meter operator (MOP) and therefore does not provide or charge for MAP or MOP services.

1.4. Persons Entitled to Apply for Metering Point Administration Services

An applicant for the use of Indigo Power Limited's MPAS must be a licensed Electricity Supplier or an appropriate person as defined in the Electricity Distribution licence. SLC37 of Indigo Power Limited's licence specifies that any electronic transfers made for the purpose of facilitating the provision of MPAS between Indigo Power Limited and an Electricity Supplier or other appropriate person is made using the Data Transfer Service.

Persons requiring the Data Transfer Service should apply to Electralink directly at:-

ElectraLink
Grafton House
2-3 Golden Square,
London W1F 9HR
Helpdesk
Tel: 020 7432 3017
helpdesk@electralink.co.uk

1.5. Procedure for Applying for Metering Point Administration Services

An application for Indigo Power Limited's MPAS should be made either:-

- by writing to the following address:-

FAO MPAS Administrator
Indigo Power Limited
15 Diddenham Court
Lambwood Hill
Grazeley
READING
RG7 1JQ;

- or by telephone to Indigo Power Limited General Enquiries on 0118 436 2510;
- or by email to indigopower@indigopipelines.co.uk.

Applicants will be required to enter into an agreement with Indigo Power Limited prior to using the services. This agreement will set out the obligation of both parties, services levels, methods of communicating information and invoicing and payment arrangements.

Where an agreement cannot be reached within a reasonable period then, under SLC7 of Indigo Power Limited's Electricity Distribution licence either party may request settlement by the Gas and Electricity Markets Authority.

2. Charges for Metering Point Administration Services

2.1. Basis of Charges

The normal operating costs of providing MPAS are included in the prices set out in Indigo Power Limited's Distribution Use of System (DUoS) charges. These are available on Indigo Power's website indigonetworks.co.uk.

If an Electricity Supplier should request additional services, then a transaction charge will be levied by Indigo Power Limited. A table of these charges is provided in Section 2.2. The charges detailed are exclusive of VAT.

2.2. Table of Transactional MPAS Charges

The charges set out below are for transactional services associated with the provision of MPAS. They are based on the administrative cost to us of providing additional services.

Activity	Unit	Charge (£)
Provision of a Contact Notice	per notice	15
Manual Database Amendment	by agreement	Individually quoted
